

DigiDoc

for
Intelligent Data Capture

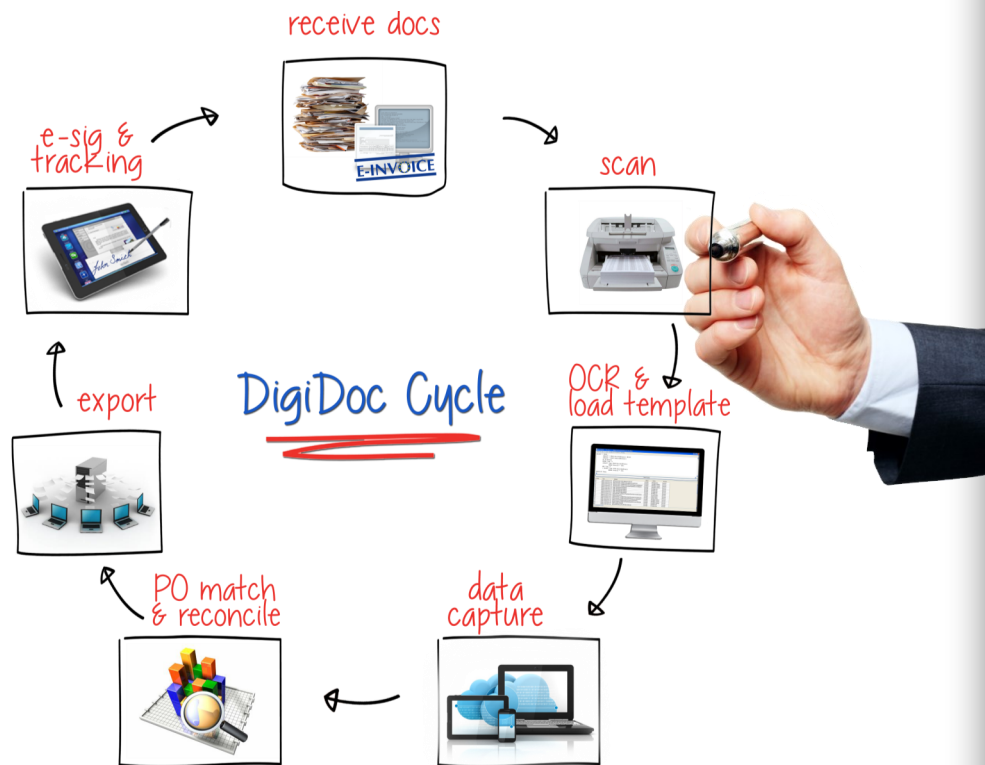

CHALLENGE

Data drives almost every aspect of your organization. From daily, routine tasks to critical business decisions – harnessing key information gives you the power to accomplish these tasks and more. However if you're like most companies, you're probably struggling to capture and make sense of it all. That's where we come in.

SOLUTION

Using our DigiDoc process, our team of data experts will work with you to extract the information you need, structure it and enter it into a format you can use to fuel your business forward. Whether it's a pile of invoices, boxes of paper or streams of data – we will gladly customize a solution that fits your unique needs.

DigiDoc

SOLUTION BENEFITS

Automate Workflow

Strengthen existing management processes while freeing up resources so your employees can concentrate on what matters most.

Eliminate Manual Processes

Create electronic efficiencies- no more time wasted by manual data/document entry.

Increase Accuracy

Reduce errors and get the information you need to make smarter decisions, faster.

Centralize Data

Gone are the days of lost or misplaced paperwork. Now you can access info with ease 24/7 from their computer or mobile device.

Flexibility

Working with a combination of platforms and data formats we customize solutions to fit your needs.

Cost Savings

Decreasing the amount of time it takes to process data saves you money – and allows you to focus on the task at hand.

View the DigiDoc Cycle through a user-friendly, dedicated dashboard.

Contact us today and see for yourself why organizations are making the switch to DigiDoc. With low upfront costs and rapid deployment options, you'll be on your way to becoming an accurate, efficient team in no time.

HELPING YOU WORK SMARTER

For the past 26 years, BDS has been empowering businesses to work smarter through our custom, can-do approach to Enterprise Information Management. We provide cost-effective intelligent data capture, database enhancement and data improvement to companies in the healthcare, education and government sectors.

Our trusted, caring team of data experts partner with clients to deeply understand their unique needs, doing whatever it takes to solve workflow problems and visibly improve operations. By helping businesses fully leverage vital information, we enable them to save time, maximize profits and focus on what they do best.
